39c. Finer weave than above, same width, full bleached.

50c. One of Rud's best numbers. Firm, even threads of special smoothness with satin finish.

TWELVE Mississippi men have been drowned going over to Louisiana for liquor. This may account for some of the vehemence with which the improvement of the Mississippi river is being demanded.—Cleveland Leader.

A RECENT decision in Minnesota holds that a city is responsible for deaths resulting from typhoid fever, due to the use of polluted water supplied by public mains.

An expansion of the idea of municipal responsibility might include a fall on a bad and neglected pavement, or it might embrace an injury to a person who is run over at a crossing where a vehicle was going ten or fifteen miles an hour or less; and so many other accidents which are the direct result of a failure to enforce the law.

A man has a right to assume that public authority is enforcing the law; that the pavement is safe and the speed is legal; and if, while acting upon this assumption, he meets with an accident, he naturally turns to the public authority and says: "You must pay for this damage to my person, for I relied upon you obeying the law and doing your duty." That is the lesson of the Minnesota decision, and that doctrine is gradually spreading far and wide. It tends to make a municipality deeply interested in law enforcement.

One direction in which this doctrine is working is in the case of preventable diseases, such as maladies that arise out of the local situation. There is strict legislation and Boards of Health of unlimited powers provided by the people, and if they are not made efficient use of the people are accountable. That's the tendency, and it is a good one.—Ashland Independent.

## A CORROBORATION OF INTEREST TO MAYSVILLE READERS

For months Maysville citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Maysville residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? No stronger proof of merit can be had than cured that have stood the test of time. The following statement should carry conviction to the mind of every Maysville reader:

M. C. Chisholm, 317 East Second street, Maysville, Ky., states:

"The cure Doan's Kidney Pills effected in my case some years ago has been permanent, and the public testimonial I then gave to their praise still holds good. I was bothered a great deal by too frequent passages of the kidney secretion, this being especially annoying at night, when I was obliged to arise several times. Having my attention called to Doan's Kidney Pills, I prepared a box at J. J. Wood & Son's Drugstore, and had taken them only a short time before I noticed a marked improvement. They soon cured me, and I have since learned of several other cases where Doan's Kidney Pills have been used with good results."

Yesterday morning about 7 o'clock John Gettis was passing West over Second street in a buggy, and when opposite Mr. Harry Daly's home in the West End he collided with a Standard Oil wagon driven by Mr. John Stoker, and was upset and thrown out and his vehicle considerably damaged. ### Washington's Natal Day

George Washington was of English ancestry and was born in Westland county, Virginia, February 22d, 1732. At the age of 57, he was elected President as a Federalist, and died at Mt. Vernon, Va., 1799, at the age of 67. His death occurred 112 years ago, and today is his 179th birthday anniversary.

As today is being observed as the usual holiday on Washington's Birthday, the exercises celebrating the patriotic event were held yesterday afternoon in the Public Schools. The most interesting of the exercises took place in the Third District school in Forest avenue, Prof. Barnes, Principal. There were appropriate exercises in all the rooms, Miss Martin and Miss Weile holding a joint celebration; also in Prof. Barnes' room and Miss Elizabeth Wood's room. But the most interesting of all the Washington Birthday programs in Maysville this year was that in Miss Lida D. Woods room. Miss Lida, always progressive and original, had her scholars enact a little patriotic drama, entitled, "Uncle Sam's Birthday Party," which was very much of a gem in itself. Every Nation was represented by little boys and girls, all dressed to the part, and taken all together, the event was quite a feature. All the schools in Maysville made the day memorable.

At the Tuck-Ho House 5,105 pounds were sold at an average price of \$8.05.

At Lexington 800,000 pounds were sold from 2c to 19c.

At Louisville nearly 1,000 hogsheads were on the market; Cincinnati 249 hogsheads.

Farmers are getting better prices at Maysville than in the other markets.

**JOHN LARKIN.**

Mr. John Larkin died last evening at 6 o'clock at the home of his son, Joseph Larkin, in Washington, after a protracted illness, aged 80 years.

He was born in Ireland and immigrated to Marion county over sixty years ago, where he had continuously resided.

He is survived by his widow and one son, Joseph Larkin, of Washington.

Funeral from his late home tomorrow afternoon at 2 o'clock. Interment in Washington Cemetery.

**MRS. JOHANNAH DANIELS.**

Mrs. Johannah Daniels, one of this city's worthy and aged residents, died yesterday afternoon at 3 o'clock at the home of her daughter, Mrs. D. O. Fristos, in East Fourth street, after a protracted illness and infirmity, incident to the weight of years, aged 87.

### Causes 95 per cent. of Diseases

### Advice Concerning Stomach Troubles and How to Remedy Them

Do not neglect indigestion, which leads to all sorts of ill and complications. An eminent doctor once said that 95% of all the ills of the human body have their origin in a disordered stomach.

A physician who made a specialty of stomach troubles, particularly dyspepsia, after years of study perfected the formulae from which Rexall Dyspepsia Tablets are made.

My experience with Rexall Dyspepsia Tablets leads me to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in peptone, one of the greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistency and regularity for a short time brings about a cessation of the pains caused by stomach disorders.

Rexall Dyspepsia Tablets will insure healthy appetite, aid digestion and promote nutrition. As evidence of my sincere faith in Rexall Dyspepsia Tablets, I ask you to try them at my risk. If they do not give you entire satisfaction, we will return you the money you paid us for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember you can obtain them only at my store—The Rexall Store, 1100 J. Chenoweth, Second and Sutton streets.

#### TEACHER TRAINING

For the Sunday-Schools—Systematic Study and Advanced Methods Recommended

The Sunday-school, if it is to be worthy the name, must be a real school and the members must be taught the Bible, the text book of the school. If the school is to be the "Teaching Service of the Church, to win souls for Christ and to train them in Christian service," it must have competent teachers, and if the teacher is to be competent, he must be trained to teach.

It is not enough that the teacher be a devoted Christian, although this is the first requisite; he must be familiar with his text book, the Bible; must know the laws governing the child-mind and must know the fundamental laws of teaching; how to present the lesson in the most attractive and impressive way; he must know how to secure attention and hold it; he must know what points to emphasize and what ones to treat lightly; he must know the difference in the characteristics of the boy of 11 and the boy of 14, and the difference between the boy and the girl of the same age.

There is no better way to acquire this knowledge than through the Teacher-Training Class. The business man must have a special training in his business if he is to succeed. The public school teacher must not only have a good education in the fundamentals, but must have a Normal Training Course if he is to succeed, as the Sunday-school teacher needs a course in Teacher-Training.

All of the accepted Teacher-Training courses are divided into three parts: Study of the Bible, lessons on the child and lessons on the school. If our schools are to grow and become a positive force for good, they must not only be organized and well officered, but must have well trained teachers.

Our most progressive schools have Teacher-Training Classes; all schools should have. Let each school in Maysville organize a Training Class and the attendance at the school will not only be greatly increased, but the work done will be much more efficient.

#### Sheep Breeders to Meet Friday

The annual meeting of the Kentucky Sheep Breeders' Association will be held at Mt. Sterling Friday, February 24th. More than 19,000 sheep were shipped from the State in six months that were found to be infected with scabies upon their arrival at the various stock yards where Government inspection is maintained. The breeders will take some action toward eradicating the disease, which is more prevalent in the counties of the central portion of the State than in the Eastern or Western portions.

#### Stopped Those Pains

Copper Hill, Va.—Mrs. Ida Cooper of this place says: "For years I had a pain in my right side and I was very sick with womanly trouble. I tried different doctors but could get no relief. I had given up all hope of ever getting well. I took Cardui, and it relieved the pain in my side and now I feel like a new person. It is a wonderful medicine." Many women are completely worn out and discouraged on account of some womanly trouble. Are you? Take Cardui, the woman's tonic. Its record shows that it will help you. Why wait? Try it today. Ask your druggist about it.

#### PECK-WILLIAMSON UNDERFEED FURNACE OR BOILER

Choose the system you like best—warm air, steam or hot water. Cheap, yet slack in the Underfeed yields as much clean, even heat as moist grades; which ordinary heating plants require. All the fire is on top and has to eat down into the fresh coal against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed furnace and boiler users to
